

FAST FACTS: ALEX² BUILDING ALLERGY PUZZLES

Why request the ALEX² test?

RESULTS AVAILABLE IN AN EASY-TO-UNDERSTAND REPORT

- ALEX² is an IgE-based macroarray.
- ALEX² automatically blocks most cross-reactive carbohydrate determinants (CCDs), avoiding clinically irrelevant results.
- Only 0.5 mL of blood (serum) is needed for the entire panel.
- Improved diagnostic accuracy with appropriate treatment recommendations e.g. immunotherapy and/or allergen avoidance.

FOR PATIENTS, DOCTORS AND ALLERGOLOGISTS.
Puzzling out allergies can be life-changing.
